

What Clients Say about Theory of Constraints

"TOC does not replace what I have learned, instead complements, and in some cases explains why there are problems that could not be resolved with other improvement techniques"

Tom Hayes, General Manager
Consulting Services,
ATS Automation Tooling Systems Inc.

REGISTRATION details:

Date –
Wednesday, June 2, 2010 – 8AM to 5PM

Location –
445 Thompson Drive, Cambridge, ON

Price -
\$690 / person

Space limited to 18 participants only

Light Breakfast and Lunch included
Post Session Networking Event – 5-6 PM

Payment Methods-
VISA, MC, Cheque

Register by -
Email – gracec@cm-sys.com
Phone – 519-740-3449 x101
Fax – 519-740-6654

Deadline -
Two weeks prior to session

What Attendees Say about the Workshop

"I have been to a number of seminars that go in one ear and out the other. This workshop will change the way I think and work – TOMORROW MORNING"

Steve Parkhill, VP Operations,
Maple Leaf Foods

Applying Theory of Constraints Workshop

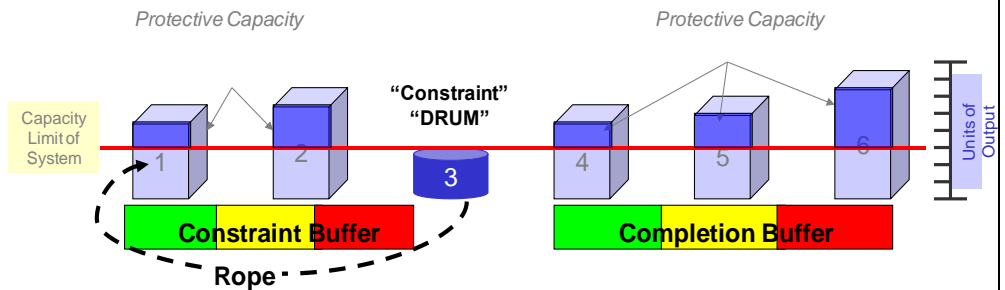

*In order to significantly ...
Improve On-Time Delivery, Decrease Lead Time and
Reduce Inventory*

*You must ...
Throw away your Forecast and Efficiency Measures*

To understand why, please join us at the following event:

Constraints Management Systems' (CMS) one day "hands-on", Applying the Theory of Constraints Workshop, will teach you how to significantly improve on-time delivery, decrease lead time and reduce inventory.

Drum-Buffer-Rope Flow Stream

This workshop, focused on **Operations Planning & Execution**, offers companies the opportunity to experience implementing the Theory of Constraints (TOC) and Lean Thinking operations solutions. This day highlights how to:

- **uncover hidden capacity**
- **improve due date performance and**
- **reduce inventory**

by removing traditional plant efficiency measures and simplifying scheduling and execution. In addition, it demonstrates how to create a company-wide Continuous Improvement process based on Flow Issue Reporting. It also demonstrates why so many Lean Manufacturing Implementations fail or are too slow to achieve meaningful results.

Constraints Management Systems Inc. is a management and technology consulting firm with offices in North America, Europe and the Middle East.
